CARLOS ALAN PASTRANA MARTÍNEZ

25 years old

Profile

Two years' worth of expertise as a Software Engineer who uses agile approaches (SCRUM) and has worked with Javascript, JS frameworks like Angular, React and Svelte for web development. Understanding of relational databases (SQL Server, PostgreSQL). A person with an interest in ongoing technological learning. My long-term goal is to become an expert in the design and implementation of scalable, high-quality software solutions.

Experience

Grupo Scanda (Ximplify) – Full Stack Developer (Mar 2022 – Actual)

- Web development with HTML, CSS and Javascript-Typescript.
- Handling of JS Frameworks: Angular and Svelte.
- Handling of CSS Frameworks: Bootstrap, Materialize, Tailwind.
- REST Web Services Development.
- Development of APIs.
- Microservices development.
- Debugs with Postman tool.
- Backend development with C# (.NET).
- Creation of JSON SPs, scalar/table functions in SQL Server, and CRUD's in relational databases.

Xie Xie Trading – Full Stack Developer (Dic 2020 – Sep 2021)

- Requirements and design analysis.
- Implementing Scrum methodology.
- Frontend development (HTML5, CSS3, JS).
- Backend development in high level languages (Java, Python).
- Handling of Java Framework: Springboot.
- Microservices.
- Software version control management (Git).
- Implementation of payment gateways (MercadoPago, CoDi).
- Deployment on Linux servers.
- Deployment in all of its stages (Dev, QA, Prod).

Certifications
